

— To our neighbours

Information sheet
Zug, June 14, 2019

Dear neighbours

Now the time has come - we were finally allowed to move into the former Shedhalle. We are happy to create a place of social interaction out of this beautiful industrial hall. Our extensive offer consists an incredible number of different experiences in the „Freiruum“ - these are equally interesting for sportsmen, gourmets and explorers from Zug as well as from the whole of Switzerland.

It is very important for us that we can also create added value for our neighbours with our services. We would like to have a good relationship with each other and would be very pleased if we could welcome you as our guest on a regular basis.

We always try to act with consideration for our neighbours and for the good of all. If this should not be completely coherent for you, especially in the initial phase, we hope for your understanding and ask you for your prompt feedback. The „Freiruum“ team will always be open to suggestions and inputs and will also try to find the right way. We thank you for these efforts and are sure that you as our neighbour will enjoy the brand new location as much as we do.

The „Freiruum“ will officially open its doors on 9 August at 5pm. Of course you are cordially invited and we would be pleased to celebrate this big day with you. You can find all information about this and the whole offer on our website www.freiruum.ch.
